To

The Honorable the Minister for
Agriculture (Food Production)
Fort St.George, Madras.

Ref. No. 2757/56-A

5th June, 1956.

Sir,

Sub:- Agriculture- Tractors & Bull Dozers- charging of normal rates for levelling the playground of the Canara High School, Urva, Mangalore, South Kanara.

Ref:- Government Memo No 49281/F.P.VI (b)/55 Dated 29-1-1956.

I am very much disappointed with the order cited. I do not know what reasons Government require to reconsider the orders passed in their memo No 37977 F.P VI (B)/55/-1 dated 31-10-1955.

I had already submitted in my application dated 30-11-1955 that we had to discontinue the levelling of our playground after spending Rs. 3,120/- by way of hire charges for the loan of the bull dozer. The playground was alienated to us by the Government in their M.S.No 2392 dated 12-9-1951. It is the policy of the Government to see that every school is equipped with a suitable playground. By our inability to have the whole playground levelled, to our financial difficulties, this policy of the Government has been defeated to the extent the levelling work has been left unfinished.

When the Government in their Proceedings Dis No 4155/55 dated 16-8-1955 modified their previous orders to levy hire charges of bull dozer for any kind of work except Agriculture double the rates charged for Agricultural purposes and declared that work connected with Educational Institutions is on a par with agricultural work. We presume that the view of the Government was that the educational institutions are charitable institutions, that they are always short of funds even for their day-to-day administration and that therefore they should be helped as far as possible.

That we had no funds to expend on the levelling work by paying double the normal rates would be evident from the very fact that we have not completed the work so far. We were therefore glad when it was brought to our notice that the need to succour educational institutions was recognised at least in the case of one institution by giving retrospective effect to the order. But we are at a loss to know what other special reasons besides poverty existed in the case of this institutions for its being taken away from the generality of cases and being treated as a special one.

It may be the Government are afraid that if retrospective effect is once given in the case of our school, they might be flooded with many such applications. But the Government might be pleased to consider whether they have in fact received many such petitions, since the modification of the order above referred to. If there are no such applications, -as I believe there have not been- it would be a ground for the Government to treat our school also as similar to chinnapatti school.

For the foregoing reasons, we would respectfully urge the Government to help us to complete our levelling work by refunding a moiety of the amount already recovered from us.

Yours faithfully,

S-6-1956

NOTE FOR CIRCULATION

The case deals with the question of allowing concessional rate of hire charges and refund of hire charges already collected from the Correspondent, Canara High School, Uroa, Mangalore.

At the request made by the correspondent, Canara High School, Urva, Mangalore, S.K. Dt. the Govt. permitted the Director of Agriculture, Madras in July 1953 to supply a departmental bulldozer to the school authorities for a period of not more than one week during the off-season for levelling eight acres of the play ground of the High School after collecting hire charges at 100% over the existing rates in full and in advance. The school authorities agreed to the above condition and paid a sum of Rs.3120 for the use of the bulldozer for 156 hours.

Now the correspondent of the school inviting attention of the Govt. to the orders issued in respect of Devargar High School, Chinnapatti, Mathurai Dt. regarding the collection of hire charges at normal rates with retrospective ~~effective~~ effect, requests that similar concession may be extended to the Kanara High School also and that half of the amount of 3120/- paid may be refunded. According to the existing orders, normal rates of hire charges should be collected for supply to all Educational Institutions and also Local Bodies and this concession will apply to cases where the supply of the departmental tractor and bulldozer is made after 8.2.'55. Though the concessional rates of hire charges were allowed to schools as for agricultural purposes in Govt.Memo.No.19839 F.P.VI(B)/54-3 dated 8.2.'55, the question of giving retrospective effect to the concession was as specifically mentioned in para 3 of Govt. memo referred to above restricted only to Devangar High School, Chinnalapatti, Madurai. Based on this order, the request made by the Canara High School authorities on 16.12.53, 12.9.55 was negatived by the Govt. in Memoranda Nos.37510 F.P.VIB/53-1 Dt.5.1.'54, 37977 F.P.VIB/54-1 Dt.31.10.'55. In Govt. Memo.No.49281 F.P. VIB/55 dated 29.1.'56 the correspondent of the Canara High School was informed in reply to his last letter Dt.30.11.'55 that the Govt. do not see sufficient reason to reconsider the

orders passed in Memo.No.37977 F.P.VI(B)/55-1 Dt.31-10-'55. PB. 4

It may be mentioned in this connection that a similar request made by the Nadar Saraswathi High School, Theni, was also negatived by the Govt. In that connection this Deptt. observed that there were many such cases and the concession, if granted would certainly create a bad precedent.

In view of the above circumstances this Dept. have proposed to inform the correspondent, canara High School, Urva, South Kanara Dt. that his requests for giving retrospective effect to the orders in Memo.No.19839/54-3 Agriculture (F.P.) VIB dated 8.2.'55 allowing concessional rate of hire charges and refund of the moiety of Rs.3,120/- already collected towards hire charges cannot be complied with. Finance have agreed to the above views. A
